

Pesticide Operator Licence - Terms and Conditions

Company Name
Names Company Traded Under
PESTICIDE OPERATOR LICENCE NO: **00-000**
EFFECTIVE DATE: 00/00/0000
EXPIRY DATE: 00/00/0000

Definitions

Water body: means any surface (high water mark) or subterranean source of fresh or salt water within the province, whether such course usually contains water or not, and includes coastal water within the jurisdiction of the province and includes water above the bed of the sea that is within the jurisdiction of the province, any river, stream, brook, creek, water course, lake, pond, spring, lagoon, ravine, gully, canal and any other flowing or standing water and the land usually or at the time covered by any such body of water.

Well: means an artificial opening in the ground from which water is obtained or that is made for the purpose of exploring for or obtaining water.

Human habitation: means every structure in which a person or persons resides on either a part-time or full time basis.

Penstock: means a pipeline leading from the intake to the turbines.

Right-of-Way (ROW): means an easement, granted by the land owner, that permits the construction and operation of a utility corridor for the purpose of transmitting electricity. The utility corridor may be of varying lengths and widths.

LEGISLATION

1. For the purpose of this licence, all definitions and regulations as indicated in the *Environmental Protection Act SNL 2002 cE-14.2* and the *Pesticides Control Regulations, 2003* shall apply.
2. All applications shall be conducted in strict compliance with the label registered under the authority of the *Pest Control Products Act* (Canada).

PESTICIDE OPERATOR RESPONSIBILITY

3. The operator shall be limited to using only those pesticides (See Appendix A), applicators (See Appendix B) and vehicles (See Appendix C) as indicated on its Pesticide Operator Licence Application dated **00/00/0000**. Any changes in the program outlined in the application must receive the written approval of the Manager, Pesticides Control Section, prior to their implementation.
4. The operator shall review these terms and conditions with each applicator prior to the start of each season, and a copy of the terms and conditions shall be provided to each applicator.
5. A copy of the operator's licence and these terms and conditions shall be available at each site during the application of a pesticide. In addition the operator shall ensure that all applicators have their pesticide applicator licences in their possession while applying pesticides unless otherwise indicated by the Pesticides Control Section.
6. Upon completion of the pesticide program for the year the operator shall submit to the Pesticides Control Section details regarding the type and quantity of each pesticide used and the name of the vendor/s from whom the pesticide was purchased. This information shall be submitted no later than **December 31**, of this year. Licences for the following season will not be processed until this information is received.

VEHICLES

7. All vehicles used during the application of pesticides for Landscape, Structural or Industrial Vegetation Management programs shall have the registered/ incorporated company name, or any other name under which this company trades, **as per your Pesticide Operator Licence**, prominently displayed on the vehicle. The name shall be displayed on both the driver and passenger sides of vehicle.

SPILLS

8. All spills involving greater than 100 litres of mixed pesticide or the equivalent of unmixed formulation shall be reported immediately. All spills involving mixed or unmixed pesticide into a water body or within 100 meters of a water body, well or area frequented by people shall be reported immediately. Spills involving less than 100 litres of mixed pesticide or equivalent amount of unmixed formulation in areas not frequented by people, or remote from water bodies or wells shall be duly recorded by the Operations Supervisor. Records of all such incidents (spills) shall be kept on file by the Operator. Reporting of spill incidents shall be made to the Pesticides Control Section, St. John's (ph.1-800-563-6181) and to Environment Canada, St. John's (ph.709-772-2083).

CONTINGENCY PLAN

9. A copy of the Operator's Contingency Plan shall be located on all vehicles carrying liquid pesticide formulations and at the entrance of the Operator's approved pesticide storage area.

The contingency plan shall include;

Section 1 - Emergency Telephone Numbers

Section 2 - Spill Reporting Instructions

Section 3 - Emergency First Aid Procedures from Pesticide Labels
(as listed in Appendix A of this document)

Section 4 - Pesticide Spill Procedure

Section 5 - Spill Response Kit

Section 6 – Protocol to Respond to Fires

Section 7 - Protocol to Respond to Theft

Section 8 - First Aid Procedures for Pesticide Poisoning

Section 9 – Pesticide Labels or Material Safety Data Sheets (MSDS)
(as listed in Appendix A of this document)

10. A quantity of approved absorbent materials is to be on hand in case of a spill. The vehicle shall also carry clean-up equipment including but not limited to, shovels, brooms, and bags/buckets.

STORAGE

11. All pesticide storage sites meet the requirements of Section 13 of the *Pesticides Control Regulations, 2003* which are as follows:
 - A source of water in an area in or adjacent to the storage area;

- Approved safety equipment as required which is properly maintained, functional and available at all times for personnel handling and working with pesticides;
- Flooring which shall not contain a floor drain or catch basin which is directly or indirectly connected to a private or municipal sewage system or public water course;
- Adequate ventilation by either natural or mechanical means so as to prevent the accumulation of toxic and/or flammable vapours;
- A “Danger Stored Pesticide” sign posted on all entrances which is printed in block letters 5 centimetres or more in height;
- Clean-up procedures, materials and equipment available to cleanup spills or leakage;
- Security procedures consistent with the instructions of the minister or person designated by the minister.

In addition to the above storage requirements, each pesticide storage site shall have prominently displayed on all entrances contact telephone numbers for the operator and the Department of Environment and Conservation, Pesticides Control Section, and indicated accordingly.

All entrances to the storage must be locked when the owner or an employee of the owner is not present.

12. Pesticides shall be stored in their original container or a substitute container approved by the manufacturer. Substitute containers shall be labelled appropriately.
13. Concentrated pesticides transported in a vehicle during spray operations shall be contained in a lock box, secure area or compartment which must be locked while unattended. Pesticides shall not be transported in the passenger compartment of any vehicle.

PROTECTIVE EQUIPMENT

14. The operator shall provide and ensure that all personnel involved in the mixing, loading, and application of pesticides wear appropriate protective equipment in accordance with the pesticide manufacturer’s product label and/or Material Safety Data Sheet.

DISPOSAL

15. Empty pesticide containers which have been triple rinsed, cleaned and rendered unusable may be disposed of at an approved waste disposal site. Contaminated

material shall be disposed of in accordance with the manufacturer's directions and in consultation with the Pesticides Control Section.

WEATHER CONDITIONS

16. All exterior spraying activities, except foliar applications of insecticides to trees taller than three (3) meters, are permitted only when wind speeds are between 2 and 15 km/h, air temperatures are below 25°C, the relative humidity is above 50% and it is not raining nor is rain anticipated over the next 2 hour period.

Foliar applications of insecticides to trees taller than three (3) meters, are permitted only when wind speeds are between 2 and 10 km/h, air temperatures are below 25EC, the relative humidity is above 50% and it is not raining nor is rain anticipated over the next 2 hour period.

Exceptions to wind speed conditions may be granted on a case by case basis. Contact the Pesticides Control Section for details.

All exterior granular pesticide applications are permitted only when air temperatures are below 25°C, the relative humidity is above 50% and it is not raining nor is rain anticipated over the next 2 hour period.

PUBLIC NOTIFICATION

17. The operator shall ensure that public notification programs are carried out as per the applicable attachment to these terms and conditions.

BUFFER ZONES

18. The operator shall adhere to all buffer zones indicated in the applicable attachment when applying pesticides near water bodies.

ADDITIONAL STIPULATIONS

19. The operator shall adhere to all additional conditions stipulated in the applicable attachment.

REVOCAATION

20. Failure by an operator, its agent, employee or a licensed pesticide applicator under its control, to adhere to the *Environmental Protection Act SNL 2002 cE-14.2*, the *Pesticides Control Regulations, 2003* or the stipulations attached to its operator

licence shall authorize the Minister of Environment and Conservation to suspend, revoke, or cancel the subject licence or prosecute under the *Environmental Protection Act SNL 2002 cE-14.2*.

PENALTY

21. Failure by an operator, its agent, employee or a licensed pesticide applicator under its control to comply with any of the terms and conditions of its licence is guilty of an offence under the *Environmental Protection Act SNL 2002 cE-14.2*.
